

# Top Gun / MVP

The top 3 players in each division, from each skill level, that played a minimum of 7 matches in the regular session are eligible for the Top Gun Tournament. Using regular session data, qualified players are determined using the following equation to determine their "PA" (Points Available) percentage:

$$\text{Number of Points Earned} \div \text{Number of Points Available} = \text{Top Gun Score}$$

**8-Ball Example:** In an individual 8-Ball match, a player has 3 points available to win. If he/she played 10 matches, they had 30 points available to win. If they won a total of 13 points, then their PA is 43%.

10 matches = 30 points available  
13 points =  $13 / 30 = 0.43 = 43\%$

**9-Ball Example:** In an individual 9-Ball match, a player has 20 points available to win. If he/she played 10 matches, they had 200 points available to win. If they won a total of 162 points, then their PA is 81%.

10 matches = 200 points available  
162 points =  $162 / 200 = 0.81 = 81\%$

Ties will be broken in the following order using regular session play data:

1. Total Number of Matches Played
2. Win Percentage
3. Performance Points
4. Lifetime Win Percentage

\*Note: Playoff/Tri-Cup matches are not considered "regular" session matches.
